

Social Media Policy for models on paid shoots with OnlyAllSites / OnlyTease

We understand and accept that many models have their own social media accounts and paid for OnlyFans / Admire Me accounts to earn additional money. However, in the past due to some models spending too long during the shoot day in promoting their own social accounts, it is necessary for us to have the following social media policy, which we do ask all models to adhere to during their shoot with OAS.

As a model for OAS you are being paid for a full days shoot with OAS, and the images / videos we take on the day are for the benefit of our paying members.

Therefore, we ask that you do not take lots of pictures during the day of all the outfits you are shooting in and posting these to your social / paid for accounts. This includes both photos and videos.

It is acceptable to take a couple of “behind the scenes” pictures during the day or a short video or two, and post these to social / paid for accounts as long as you always tag OnlyAllSites appropriate social account (see below) or include a mention that you are shooting today for onlyallsites.com.

Our social accounts are:

Twitter: **@onlyallsites**

Facebook: **<https://www.facebook.com/onlyallsites>**

Instagram: **<https://www.instagram.com/onlyallsites>**

We also ask that you respect our staff at the studio and do not include them in any pictures or videos.

This policy is to help the shoot to run smoothly and to schedule.

We thank you for your cooperation.
